## CAREER

### OPRO Infoech LTD (Chief Operating Officer) 2015 - 2019

OPROIT was a start-up company when I joined it. At first I used to work here as a web developer and then gradually I became the COO of that company. The main duties of mine there are focused below:

- Developing website/web application.
- To manage & monitor all operations going on in the company.
- To ensure a successful project by creating and managing a perfect team.

### Dikkha Online Limited (Front End Developer) March'19 – June'19

Dikkha Online Limited is providing a platform for online education and online tutoring, where the learners can learn and share their educational experience online. The main duties of mine there are focused below:

- To Implement layout design given by the designer
- To assist the backend developer to setup a connection between the front end and the back end.

### Job Link Corporate (CEO) July'19 – September'20

Job Link Corporate has started its journey in 2018. Since then, they are working on integrating the world wide job opportunities in one market place. They are also working on providing various companies many B2B services as per their needs. The main duties of mine there are focused below:

- To build and maintain their application.
- To monitor and manage all the operations going on in the company.

### Last Minute IT (CEO) 2019 - Present

Last Minute IT is my own software start-up company established in 2019. The company building process is still going on achieving success in various fields and projects frequently.
